Family Services Roscommon

A support service for children and families

**Family Services recognise that every family is unique
and that all families need support at certain times**

Family Services aim to support children, young people and families who are experiencing difficulties at home, school or within the community

Family Services ...

- ... work directly with children and young people at individual and group levels.
- ... provide support to parents / guardians through home visits, individual support and group work programmes.
- ... provide information and advice to children, young people and parents / guardians when required.
- ... act as an advocate for children, young people and parents / guardians when necessary.
- ... organise family led interagency meetings including Meitheal to develop an action plan and promote the best outcomes for children and young people.

We promote and respect children's rights in line with the United Nations Convention on the Rights of the Child.

OUR APPROACH

- To develop an individual plan to meet the needs of each child and family
- To be flexible in our approach as the needs of each family are unique
- To work in partnership with families
- To promote a multi agency approach in our work with children and families
- To link children and families into other available services if required
